

List of Charges of Data Provision Service

JMBSC data provision services are separated in 3 segments services.

These are,

- (1) Circuit message information (similar to GTS information)
- (2) File transfer information (Large size files, such as NWP, Satellite and so on)
- (3) Emergency earthquake information

To receive these information, clients have to prepare <A>initial setting fee, monthly facility charge, <C>monthly data costs for each 1 category and <D> Circuit costs.

Initial setting fee is the fee to set up JMBSC network facilities and to check if it runs well.

Monthly facility charge is the fee for electricities, operators and to maintain facilities.

Monthly data cost is the cost for the data itself.

Circuit cost is the cost to pay for carriers and their operators.

On the other hand, for local smaller users, we can provide smaller data package divided in 6 areas. The cost depends on the number of areas. If an user needs only one area data, the cost is one sixth of the normal cost.

6 areas are as follows.

Hokkaido, Tohoku, Kanto-Tokai, Kansai-Shikoku-Chugoku, Kyushu

List of Charges The price includes Japanese consumption tax (5%)

<A> Initial setting fee

Circuit message information	52,500 JPY
File Transfer information	52,500 JPY
emergency earthquake information	52,500 JPY

 Monthly facility charge

normal cost	19,800 JPY
cost for 1 area users	3,300 JPY

<C> Monthly Data Costs

Circuit message information	1 Area	All Area
earthquake, volcano, tsunami	3,700	22,200 JPY
advisory, warning	8,600	51,600 JPY
JMA forecasts	10,300	61,800 JPY
Observation data(SYNOP etc)	14,000	84,000 JPY
climatically statistic data	5,300	31,800 JPY
aero logical data	10,600	63,600 JPY
NWP data	10,600	63,600 JPY
Guidance (statistic) forecasts	10,000	60,000 JPY
AMeDAS, wind profiler	11,000	66,000 JPY
File Transfer information	1 Area	All Area
NWP(GSM:global model)	4,900	29,400 JPY
NWP(RSM:regional model)	4,300	25,800 JPY
NWP(MSM:meso model)	6,100	36,600 JPY
1month forecast NWP	4,900	29,400 JPY
weekly ensemble NWP	5,500	33,000 JPY
global wave NWP(GWM)	3,100	18,600 JPY
3 months forecast NWP	4,200	25,200 JPY
6 months forecast NWP	2,600	15,600 JPY
Yellow sand forecast NWP	4,400	26,400 JPY
Rain nowcast (0-60 minutes ahead)	4,700	28,200 JPY
1km composited RADAR	3,900	23,400 JPY
weather charts	3,900	23,400 JPY
UV information	2,400	14,400 JPY
Re-analyzed precipitation data and short range forecast	4,200	25,200 JPY
Re-analyzed wind, Temperature and clouds	5,300	31,800 JPY

north pacific SST data	1,200	7,200 JPY
GMS6 IR1 channel	5,100	30,600 JPY
GMS6 IR2 channel	5,100	30,600 JPY
GMS6 IR3 channel	5,100	30,600 JPY
GMS6 IR4 channel	5,100	30,600 JPY
GMS6 VIS channel	from April 2007	JPY
north-west pacific SST data(evaluated with satellite d	3,500	21,000 JPY
flood information	1,200	7,200 JPY
land slide information	1,200	7,200 JPY
forecast figures for prefectures	2,300	13,800 JPY
emergency earthquake information		
		40,100 JPY
<D> circuit costs		
IP-VPN		20,300 JPY
The inter-net		20,300 JPY
